Experienced Full Stack Developer with a strong background in designing and developing scalable web applications. Proficient in both front-end and back-end technologies, including HTML/CSS, JavaScript, and various frameworks. Seeking a Full Stack Developer position where I can utilize my skills and experience to contribute to the development of cutting-edge software solutions.

Skills

CORE TECHNOLOGIES

C
C++
SQL
JAVA
Data Structures
Algorithms
Node JS
Express JS
React JS
Mongo DB
Python
Springboot

INDUSTRY
KNOWLEDGE

Git
JIRA
Debugging

Education

Laxman Public School 2019 to 2021
Institute of Information Technology & Management 2021 to Current
BCA 2024

Internships

CDAC Jasola Vihar
Software Developer Apr. 2023 to Sept. 2023
• Leveraged MERN, and Mongo DB Server technologies to engineer and deploy the system, meeting project deadlines and quality standards.

Summer Sunset Festival - Clique Events Mar. 2022 to Aug. 2022
Technical Head
• Orchestrated the planning, coordination, and execution of the Summer Sunset event, resulting in a 25% increase in attendance and a 40% boost in revenue, enhancing the event experience for over 1000 attendees.

Projects

TaskSwift Apr. 2023 to Current
• Restructured the system to seamlessly integrate external tools for enhanced lead generation, logging, analytics, and data consolidation from various team sources, resulting in a 50% increase in lead conversion.
• Implemented automated bulk features for efficient schedule management and follow-up, reducing manual effort by 70%.
• Developed a dynamic scale-out solution to deploy parallel resources and distribute requests concurrently, improving system performance by 60%.
• Tech Stack: Backend: MongoDB, Express.js, Node.js Frontend: React.

Call for proposals Mar. 2023 to Apr. 2023
• Spearheaded the redesigning initiative, known as the "Call for Proposal" system, enabling new startup ideas to submit their requests on the portal, increasing the submission rate by 40%.
• Orchestrated a comprehensive database overhaul, transitioning to a partitioned MSSQL/SQL Server database from MongoDB, resulting in a 50% decrease in query response time.
• Tech Stack: React, Express.js, Node.js.

Homely Oct. 2022 to Dec. 2022
• Implemented a user-friendly recipe browsing system with accurate ingredient quantities, reducing user search time by 30%.
• Developed dynamic grocery stock management, automatically reducing stock levels upon dish preparation, and improving inventory accuracy by 95%.
• Tech Stack: Java - React, Bootstrap, MySQL.

Achievements

Mock Stock
Emerged as the victor in a highly competitive mock stock competition, showcasing exceptional market insight, strategic decision-making, and analytical prowess.

Hackathon
Achieved the coveted title of Hackathon Winner, demonstrating exceptional problem-solving abilities, innovative thinking, and collaborative skills in a competitive environment.

Position of Responsibilities

Internware
Tech Executive
House Captain
House Captain of the school
