EDUCATION

Bachelor of Computer Applications

Institute Of Information Technology and Management

01/2021 - 01/2024

- Major: Software Development

Commerce

Laxman Public School

01/2019 - 12/2019

EXPERIENCE

Technical Manager

Summer Sunset Festival

2022 - 08/2022

- Orchestrated the planning, coordination, and execution
- Achieved a 25% increase in attendance and a 40% boost in revenue
- Enhanced the event experience for over 1,000 attendees

Application Developer

CDAC

04/2023 - 09/2023

- Reduced server response time by 6%, resulting in a 15% increase in user satisfaction.
- Enhanced application performance by 20% by optimizing algorithms and database queries.
- Lowered system maintenance costs by 12% through automation scripts using Node.js.

PROJECTS

Task Swift

06/2023 - Present

Customized JIRA Project

- Integrated external tools for enhanced lead generation, logging, analytics, and data consolidation, boosting lead conversion by 50%.
- Automated bulk features for efficient schedule management and follow-up, reducing manual effort by 70%.
- Developed a dynamic scale-out solution for parallel resource deployment and concurrent request distribution, improving system performance by 60%.
- Tech Stack: Backend: MongoDB, Express.js, Node.js Frontend: React.

Homely

10/2022 - 12/2022

Recipe system & inventory management

- Implemented a user-friendly recipe browsing system, reducing search time by 30% with accurate ingredient quantities.
- Developed dynamic grocery stock management, enhancing inventory accuracy by 95% through automatic stock reduction upon dish preparation.
- Tech Stack: Java - React, Bootstrap, MySQL.

SUMMARY

Passionate Software Developer with a solid track record in designing and developing scalable, robust applications. Skilled in both front-end and back-end technologies, including React, Spring Boot, Node.js, and various frameworks, I excel at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects. Seeking a Backend Developer position where I can leverage my expertise to create cutting-edge software solutions.

SKILLS

HTML CSS Python Git Java

MongoDB Javascript SQL C++

Data Structures And Algorithms ExpressJs

NodeJS ReactJS Springboot JIRA

Debugging

ACHIEVEMENTS

Mock Stock

Internware

Achieved top 5% placement in a highly competitive mock stock competition & demonstrated exceptional market insight, strategic decision-making, and strong analytical skills, resulting in a 25% portfolio growth in 3 months.

Matrix Hackathon

Internware

Secured the prestigious Hackathon Winner title by developing a cutting-edge AI solution that reduced processing time by 40% and showcased superior problem-solving, innovation, and teamwork in a high-pressure environment.
